## Experience

<b>Cybertron Technologies</b> Software Developer	<b>Aug 2024 -Present</b> Chandigarh,Mohali
---	---

## Projects

<b>Signature Healthcare</b>	<b>Present</b>
-----------------------------	----------------

- 🔗 <https://signature-healthcare.org/>
- Developed and maintained a comprehensive healthcare website using **PHP, AJAX, JS**, and jQuery integrated with the ExpressionEngine CMS to manage diverse content effectively.
  - Designed and implemented key features, including Urgent Care and Wellness Services pages, enhancing user experience.
  - **Integrated** a secure Authorize.net payment gateway to streamline patient payment processes.
  - Optimized website performance and responsiveness by leveraging **JavaScript, AJAX**, and modern web technologies.
  - Created interactive elements such as a Care to Share Program and Hiring Events portal.

<b>Defense_Doctrine</b>	<b>Dec 2024 - Feb 2025</b>
-------------------------	----------------------------

- 🔗 [https://github.com/dhyanishubham122/defencebook\\_hub.git](https://github.com/dhyanishubham122/defencebook_hub.git)
- Tools & technologies used: MongoDB, Express.js, React, **Node.js**, Context API, AI Integration, Tailwind CSS.
  - Implemented an AI-powered admin dashboard with role-based access control (**RBAC**) to ensure secure and hierarchical management of defense-related books. Integrated authentication using **Context API** for seamless user access control. Developed a MERN-based platform allowing admins to **add, update, and delete books**, ensuring data accuracy and security while enhancing user experience .
  - Designed a modern and responsive **React UI** using **Tailwind CSS**, ensuring an intuitive and visually appealing experience. Optimized component structure for better performance and implemented interactive UI elements to improve usability.

<b>Trainbites</b>	<b>March 2023-Sep 2023</b>
-------------------	----------------------------

- 🔗 [https://github.com/dhyanishubham122/Trainbite\\_hub](https://github.com/dhyanishubham122/Trainbite_hub)
- Technology Used: HTML, CSS, JavaScript, RestAPI, NodeJs PHP, My SQLite.
- Participated in Hackathon At CGC Jhanjheri College.
  - It is Food Delivery Website that delivers food at stations using PNR/Train No on the way
  - It tracks Train live locations and on the basis of time availability it allows to place order on the website.

## Education

<b>Chandigarh University</b> 7.42	<b>Sep 2022 - July 2024</b> Master of Computer Application
--------------------------------------	---

<b>Kurukshetra University, Kurukshetra</b> 71.8 %	<b>Sep 2019 - Jul 2022</b> Bachelor of Computer Application
--	--

## Certifications

<b>Advanced Business Analytics</b> Coursera	<b>2023</b>
